MISSION 14 – PSYCHIC NIGHTMARE

MISSION BACKGROUND

The Frog-Mages ordered the construction of beacons in an attempt to collect the psychic energy of Tlatec. During the search for the Voidcrown, these became hotspots of conflict even as anomalies manifested that bent minds and bodies alike.

THE BATTLEFIELD

For this mission you'll need a 6'x4' area, with 15+ pieces of terrain.

THE ARMIES

For this mission you'll need two armies of equal point cost, and each army must have at least one caster.

SPECIAL SET-UP

Before deployment, the players roll-off, and then alternate in placing a total of 4 caster beacon markers anywhere on the table over 9" away from other markers and the table edge, starting with the player that won the roll-off.

DEPLOYMENT

The players roll-off, and the winner picks zone A or B to be their deployment zone, with their opponent taking the opposite. Then the players alternate in placing one unit each within their deployment zone, starting with the player that won the deployment roll-off.

FIRST TURN

The player that has won the deployment roll-off gets the first turn.

OBJECTIVES

Before the game begins, count the total number of units in each player's army, with combined units and heroes joining units counting as one.

At the end of the game players get 2 VPs for destroying at least half of the units in the enemy army, plus 1 VP for each enemy caster they destroyed.

Players also get 1 VP for each time that they successfully cast a spell.

The game ends after 4 rounds, and the player that scored most VPs wins.

SPECIAL RULES

Psychic Beacons: Once per round, all casters within 6" of a beacon may try to cast one level 1 spell for free.

Psychic Backlash: Whenever a caster rolls an unmodified result of 1 when trying to cast a spell, they take D3 wounds.

Psychic Terrors: At the beginning of each round, roll one die, and apply the effect until the end of the round:

Result	Event
1	**Madness -** One random unit from each army must take a morale test. If failed it takes 1 wound and must keep taking morale tests until it passes or is destroyed.
2	**Torture -** All casters take wounds from psychic backlash on results of 1 and 6.
3	**Agony -** All units that take any wounds from shooting always take D3 extra wounds.
4	**Mania -** All units that take any wounds from melee always take D3 extra wounds.
5	**Apathy -** All units that don't move take D3 wounds at the end of their activation.
6	**Despair -** All units get -4 to morale test rolls.
